<b>HOME:</b>	Graz / Austria

**Ravengold** is an alternative rock band from Graz, Austria. Since its founding in 2020 Ravengold is working on its individual sound with elements of straight forward rock riffs and crossover elements sprinkled with baladesque influences. The surprising and sly sounds combined with the elegance of the melody-guidance seem cunning as a raven, looking down from the sky on the austrian rock-scene. Ground shaking drumbeats, timeless banger guitar riffs, throat grabbing bass licks and melodic vocals are telling stories that pull you right into the songs.

Are you ready to spread your wings?

### **Biography**

Ravengold was formed as an alternative rock band in 2020 in Graz, Austria. At first there were only three members in the group. With Robin Rosenblattl on the guitar, Bernhard Weigl on the bass and Martin Klement on the drums the band has written several instrumental songs waiting for a singer who could add the matching melodies and lyrics to their music and fit the energy of their tough and strong sound. In 2021 Laura Trolp joined the group as singer. Since that time the group is working on their first releases and has improved their sound growing stronger as a band.

Currently Ravengold is waiting in starting position for blowing the audiences minds with their sound on their debut-concert and shatter the alternative-rock-scene with it's beat of wings.
